Notice to Importers—Carrying Goods in Bond

gular Custom House Blank will be provided for the withdrawal of goods from buil. Such blank when presented to be accompanied by the usual charges; i. e.: blank \$1.00, fee for filing, .50.

F. B. MCSTOCKER. Deputy Collector General.

Approved: Minister of Pinance.

she Evening Bulletin,

DANIEL LOGAN, Editor.

THURSDAY, AUG. 27, 1896.

THE CENSUS. with a copy of the blank return to | up of ordinary people. be filled up by householders, or taken as of Sunday night, Septem- much thought the nationality be useless. One point that can-the absentee provision, the reof a family or household absent so as to secure the minimum of from the house the night the absenteeism from Honolulu. census is taken must not be entered. Absent ones will be enumerated in the returns of the house missioner for Canada in London, they sleep in that night. Hopo- while on a recent visit home delulu people visiting Hilo or Hilo nied emphatically the report that people visiting Honolulu, for the cable conference adjourned instance, are to be counted where until the attitude of the new Canthey are and not where they per- | adian Government could be ascermanently reside. While this is tained. It had adjourned until the scheme that the superintend- October to enable some of its ent has adopted, it would seem to members to attend the interna-be liable to vitiate the statistics in tional telegraphic conference in a other way, and in the most all some respects. Take for instance continental city. Sir Donald was around practical manner. John Smith, belonging to Hono- sanguine of the early consumma-Iulu, owning the house he lives in, tion of both the cable and the fast a'so the possessor of twenty steamer connections on the Atlanhorses and one hundred head of tic and Pacific with the Canadian revolutionized dairying mecattle. If he be counted away transcontinental railway. Pre-thods. The State Colleges from home say on the island of mier Laurier is in favor of both and Experiment Stations all Hawaii, will not that circumstance give Hawaii one his own house owner, twenty horses and one hundred cattle more than be- Populists carried their burdens long used them. Progressive long to that island? And if the Chinese fashion, there would be dairy farmers do so in all secbalance of travel in that manner no show for the Republicans or tions. There must be many happens on the date of the census | Democrats to get past. to be against Honolulu, will it not throw the statistics of real estate | Building contractors are trying otherwise than endorse it. and live stock, etc., for Oahu to educate the Board of Educabadly out of accuracy? All the tion up to a higher standard of Dairy Cream Separators are statistics gathered in the census arithmetic for calculations on now made in six different would have greater interest as new schoolhouses. well as practical value if subdivided by islands. Another omission is that of a column for "sold," be McKinley or Bryan recording the nationality of left out in the "cold." foreigners. There is one for "nationality of father," which may give very misleading results. One's father might be a Norwegian and himself an American citizen. Another column for the naturalized citizenship of a person's father seems to be without any useful significance whatever. That these headings are at least from the model selectule printed on the back of the return. "John Smith" has the nationality of his father entered as "British." "Lilia Smith," presumably his wife, is "Hawaiian." Three young Smiths are then entered, with the nationality of father as "part Hawajiau." John Smith must then he part British and part Hawaiian, and the children are quarter-whites. Would it not be better to have a column simply for the nationality of each person, drop out "Father, naturalized citizen of what country," and use the space for recording the respective races of father and mother of part Hawaiians. fo eign settlement in this country has attained an age when there are Hawaiian citizens children of Hawaiian

entered be put down as having Hawaiian fathers, and the result would be misleading in the utmost degree. It appears to us that to secure explicitness there should be On and after September 1st, 1896 a re- columns for stating the nationality by descent. This would take more room. But why not - make the personal enumeration on a separate duced the De Laval Cream form or page from the property registration? This by the way would obviate the difficulty previously noted as to property owners absent from their domiciles the night of enumeration. Paper few days as the demand created is cheap enough to afford ample by it soon exhausted the supspace for the purpose. The apparent defects in the blank herein indicated may be satisfactorily shown to be no defects by the superintendent, but when one ordinary fellow thinks thing a great many others may do like-

race. These must to be correctly

Since the foregoing was in for them by the enumerators when 'type the writer has seen Mr. necessary, for the census to be Atkinson. He says that after per 27. For those with intelli- scheme was adopted, as being the gence to fill out their own returns best for all purposes. One's no explanation of the blank is birthplace would not indicate his necessary, while for others the nationality so certainly as his most elaborate directions would father's nationality. Regarding not be made too clear to the pub- sulting inaccuracy would be very lie, however, is that any member slight, as he had placed the time

CREAM SEPARATORS.

A short time ago we intro-Separators to the notice of the public through this column but we were compelled to change our advertisement in a ply of Separators we had on hand.

We have just received a fresh supply and again call attention to their merits.

Have you one or more cows? Mr. Atkinson has favored us wise. The world is chiefly made If so, what is your purpose in keeping them? Is it your object to get the most money from them, with at same time some comfort and satisfaction? Are you doing it?

Have you kept pace with the improvements in dairy apparatus? Have you ever stopped to consider the benefits of the Cream Separator,—not to the world, not to your neighbor, but to you personally and individually?

If not, you cannot do anything better, and the sooner the better. Everybody now understands the principle of centrifugal creaming. Gravity causes the cream to rise in the old way. The separator simply adds centrifugal force to gravity. It merely uses two natural forces instead of one only. It effects the complete separation of cream from milk,

The De Laval Cream Separators are in almost universal use the world over. They have use and advocate them. More than 85,000 have been sold. All practical creameries have users around you. No user of a De Laval machine ever did

The De Laval "Baby" or styles and sizes. They range in capacity from 150 lbs. per hour to 700 lbs. per hour. Capacity means separating capacity per hour. They are made for all requirements from the household buying its milk, to the dairy of from one cow to one hundred.

The De Laval machines are Kroeger Pianos, sweetest in tone,
Jas. W. Bergstrom, sole agent, cash
or installments. Warerooms at
G. West's, Masonic Temple Hand machines. They are de-Still they may be attached to any sort of light power, from dog tread to engine.

We have also a smaller type of the same machine, which is designated as the "Humming Bird," especially intended for household use. It is very Also, a supply of small, very compact, extremely simple, easily understood and cared for, safe and durable. It possesses every advantage to be found in any of the larger 'Alpha' machines.

Hang

to your type printed visiting card, when it is so easy to get the correct thing right at

No eard but an engraved one is acceptable; others are considered should and should not be used.

We know the correct thing, and any work turned out by us, will place you right in the swim.

Every effort is being made by us to keep this work at home, and if a strict adherence to San Francisco prices, combined with good clean work is any inducement to place orders here, we will get all your work from now on.

Bear in mind that we are not trying to meet the cut rates of Eastern Department stores for inferior work; but are doing good work, using the very best of material, and adhering closely to ruling rates in San Francisco.

Nor is the work confined to Cards alone, but Wedding and Society Stationery, Business Cards, Announcements, Bill Heads for Professional men, Embossing, and the general run of work coming under that head, have the same careful attention.

You may not need any thing now, but it is well to bear in mind when the time comes, and save the expense of sending away for it.
